## 2024\_28\_III\_OOPS Using Java Lab

### 2028\_REC\_OOPS using Java\_Week 10\_Q3

Attempt : 1  
Total Mark : 10  
Marks Obtained : 10

#### Section 1 : COD

##### 1. Problem Statement

Priya is analyzing encrypted messages in a research project. She wants to analyze the frequency of each character in a given paragraph. The characters should be stored in a TreeMap so that the output is sorted in ascending order of characters automatically.

You are required to build a Java program that:

Uses a `TreeMap<Character, Integer>` to count how many times each character appears in the message. Ignores spaces and considers only alphabets (case-sensitive). Outputs the frequencies of characters in sorted order.

You must use a TreeMap in the class named MessageAnalyzer.

**Input Format**

The first line of input contains an integer n, the number of lines in the message.

The next n lines each contain a string (the encrypted message line).

### **Output Format**

The first line of output prints: "Character Frequency:"

Then print each character and its frequency in the format: "<character>: <count>"

Refer to the sample output for formatting specifications.

### **Sample Test Case**

Input: 2  
Hello World  
Java

Output: Character Frequency:

H: 1

J: 1

W: 1

a: 2

d: 1

e: 1

l: 3

o: 2

r: 1

v: 1

### **Answer**

// You are using Java

```
import java.util.*;
```

```
class main{
```

```
    public static void main(String[] args){
```

```
        Scanner sc = new Scanner(System.in);
```

```
        int n= sc.nextInt();
```

```
        TreeMap <Character, Integer> freqMap = new TreeMap<>();
```

```
        for(int i=0;i<=n;i++){
```

```
            String s = sc.nextLine();
```

```
            for(char ch: s.toCharArray()){
```

```
                if(Character.isLetter(ch)){
```

```
        freqMap.put(ch,freqMap.getOrDefault(ch,0)+1);
    }
}
}
System.out.println("Character Frequency: ");
for(Map.Entry<Character, Integer>entry: freqMap.entrySet()){
    System.out.println(entry.getKey()+" : "+entry.getValue());
}
}
}
```

**Status :** Correct

**Marks :** 10/10
